

BATTLEZONE VICTORIES

Peter Reta

Las Vegas, NV

I was doing the Christian thing, going to church, weekly men's group and I was involved in teaching summer Sunday school. However, to be honest I was still struggling with the same sin. I desperately needed something more. I needed someone to show me how to stop this habitual sin and start living for Christ. I prayed and asked God to help me.

Then, I got a call from a friend. He told me that he just went through a class called BattleZONE. He thought this class would help me to get to the next level in my Christian walk. To be honest, the first thought that came to my mind was, "I am way too busy." At the same time, pride came to me, why is my friend asking me to take this class? Does he see something in me that tipped him off that I need this class or is he just being a friend? Come to find out, he was just being a friend. So I reluctantly told him that I would try it out.

I remember the first day I went to the class. I told the "captain" that I hoped that I would be focused and committed enough to finish the entire course. BattleZONE Training Course not only changed my life, it changed my heart and motivated me to pursue God like never before. BattleZONE showed me how to use all kinds of tools based on Biblical principles and certain Scriptures to fight the battle that I was struggling with. It also taught me that I am not alone and that other men are also battling the same wars. I think what every man faces is the question of significance; Who am I and do I really matter? Well the answer is _____.

I will let God tell you in His timing. I encourage you to go through the BattleZONE Training Course and God will show you the answer—like He showed me.

I am now committed to become a Certified BattleZONE Coach and take other men through this Bible-based curriculum. I have found a passion for men's ministry and God is using BattleZONE as a vehicle to disciple men to become more like Jesus. I have found significance to the glory of God.
