

BATTLEZONE VICTORIES

Russell Danaher

Deer Lodge, MT
Montana State Prison

It is clear that with the introduction of the BattleZONE program into Montana State Prison (MSP), lives can be changed by the tools and insights this ministry offers. Jesus has used this program to give the inmates at MSP the biblical and spiritual tools to overcome the rebellion and dysfunction that put them behind bars. I have personally seen men who struggle with anger, addiction, and lust in horrifically deviant ways turn to Jesus in repentance because of this ministry. The impact will be measured one day by victims who never were. As a result of this ministry, men who have been removed from society because of sin are learning how to live righteously as citizens of God's Kingdom.

BattleZONE offers practical tools and strategies based on biblical principles that are often overlooked by Christian men. I have seen other programs come into prison and teach men how to deal with sin and temptation, but this is one of the few that penetrates the con games and façades and gets through to the heart. The BattleZONE Training Course and Coach's have been a part of God's plan to make men out of these convicts. In an environment where vulnerability and honesty are seen as weaknesses, BattleZONE has birthed accountability and transparency among the inmates and has produced healthy and biblical discipleship.
