

BATTLEZONE VICTORIES

Robert Hutton

Fresno, CA

Growing up in a religious home but not having the truth of God in my heart resulted in a self seeking sinful life style up into my mid twenties. Graciously God sent a good friend to share the Gospel with me at 25yrs of age. Finally, I found the true and living God through my Savior and Lord Jesus Christ. Even though this was life changing and my faith sincere, I found there were areas of my life that we were still not submitted totally to God.

I was willing to declare Jesus as my Savior but like so many men, I was not going to make Jesus Lord of the secret sinful areas of my life. As years passed and not knowing how to have true accountability to God and other men, my spiritual life began to deteriorate. This led to serious marital family issues and being a very defeated ineffective witness for Christ.

My wife had heard of BattleZONE Ministries because she was working with Michael Pouliot on the Mayor's Fitness Council. I read some of the training and it peaked my curiosity. I then signed up for a BattleZONE Training with BZ Coach Michael Alfheim. After the 11 week course I finally had the tools to be the man of God desired me to be. I have since become a BattleZONE Coach and have led four groups of men.

To see how God has changed my life, marriage and relationship with Him has been nothing short of a miracle. The biggest impact however has been to see the men that have completed the BattleZONE Training

Course. How BZ has made them grow and begin to lead as men for the Kingdom of God has been amazing! If you want to know how to harness God's power for victory in your life, I challenge you to tackle your BattleZONE today. You will never be the same.

Dear Michael,

I have been meaning to e-mail you to tell you how incredible your BattleZONE study is! My husband has had 4 faithful guys participate in his first course and they love it. I have watched my husband grow immensely in the process as God is doing things in his battle zones that are blowing me away! He took me through the book and it is both creative and dead-on to the Word of God.
