

# BATTLEZONE VICTORIES

**David J. Knobel**

Fresno, CA

At the age of 9, I was put into a 2 ton flat bed truck and shown how to drive in the field while men loaded hay onto the bed. To do this I was instructed and corrected until I could demonstrate this driving skill. Growing up, this repeated itself many times as I was taught to hunt, fish, drive a tractor, disc fields, cultivate corn, milk cows, and many other skills I had to learn.

Back home, in New York, I was brought up in church from the time I was a baby. Throughout those years I had many Sunday school lessons taught to me and I listened to hundreds of different sermons. I was exposed to many different pastors and eventually would seek their guidance for certain life challenges. Unfortunately, the standard answer was; here is a book to read, you need to pray more or just read and memorize more scripture. Sure, these all had taught truth but I needed more training like I did back on the farm.

I fumbled around and tried to figure these things out for myself but I failed. Quite honestly I was looking for tools and skills to overcome my temptations but not one was presented. Then God brought BattleZONE Ministries into my life. As I went through the training course I was given the tools I desperately needed to overcome my sinful flesh and defeat the enemy's schemes. BZ was the hardest spiritual training course I have ever done because it forced me to come face to face with why I sinned as well as the pain that God needed to heal in me.

BattleZONE was an answer to my prayers because it gave me the practical tools, processes, and accountability that I needed to have victory over some areas in my life as well as develop a closer relationship with Jesus and the Spirit. I am now a BattleZONE Coach and continue to see how God uses this ministry in my own life and in the lives of other men. The true blessing about using this discipleship tool is that I have witnessed God use it to reach beyond five generations of men. As men are impacted for Christ, their families benefit and so does a church body. This is why I am committed to make disciples of Jesus using BZ as a tool.
