

# BATTLEZONE VICTORIES

**Darrin Folger**

Akron, NY

I have been a follower of Jesus Christ for many years. Through those years I have experienced many victories, and also many defeats. In certain areas I was able to soar with the eagles, and in other areas I couldn't get off the ground. I read God's Word, studied God's Word and still struggled in certain areas of my life. Then I was lead to take BattleZONE.

God used BattleZONE to teach me how to put together a plan that would defeat the enemies attempts to make me fail. The course reaffirmed who I am in Christ and brought me together with guys who face many of the same struggles and more. I was able to build relationships with these men. I have had accountability partners in the past and have built some great relationships, but I had never taken a course specifically designed to teach me how to repeatedly beat the enemy and my flesh.

BattleZONE did just that. It taught me how to see the enemies plan and to put together a plan to beat him repeatedly.

BattleZONE isn't a mystery. Instead it's a course that causes a man to see, accept, and admit to his struggles (BattleZONES). From there you learn to put together a practical plan of attack to repeatedly defeat the enemy and his plans to make you fail. God will use BattleZONE to make you a better man for Christ and His mission.
